Commissioner O'Neil Writes Interesting Letter on Boxing Situation and Incidentally Comes Out in Favor of Referee Decisions.

Copyright, 1911, by The Press Publishing Co.
(The New York World).

R. FRANK S. O'NEIL, Boxing Commissioner, has written me a letter that comes near covering alf the interesting points connected with ent boxing situation. Here it is

Wednesday Eve. Dear Bob-I imagined you might attend the meeting of the Commission to-day, but having failed to appear, I am compelled to write you. one of your articles last week you mentioned the fact that I voted to allow decisions by referces. The minutes of our meetings, which I intended to submit to you, prove that such is not the case. I dishe was opposed to repealing our "no-decision" rule I did not urge my argument. Nearly a month ago I aggested the giving of decisions by referees, but the matter was never voted upon. Frankly I am in favor of decisions, but I never infavor of decisions, but I rever intend to let my opinion interfere with the sport. Despatches from Albany read that Gov. Dix is opposed to the giving of decisions. The Governor never gave me his views on that subject. In one of your articles published last week you note that the giving of decisions caused the repeal of the Horton law. In a measure that 's true, but there were other cases contributing to its early death. Read the Horton law. Compare it with the Frawley act. There is no comparison. There were no means under the Horton law to discipline and blacklist a referee, contestant, promoter or club for participating in a sham contest. The State Athletic Commission has ab-State Athlette Commission has ab-solute control over all parties en-gaged in the exhibition. It has power to revoke the license of the guilty club, punish the parties who conceived and engineered the plot and blacklist the guilty contestants. It has larger jurisdiction, which I do not intend to discuss at this time. not intend to discuss at this time. I was prompted to suggest the giving of decisions in hope that it would result in a champion in the different classes. There is no question but what there would be a gradual process of eliminaton. The contestants would prepare for the encounter with more pains and would, to my mind, strive with greater effort on the night of the contest, having in mind the fact that there was something else in the house besides their share of the profit-namely, the honor of a vic-tory. A boxer would rather have "champion of the world" tacked after his name and only a meal tleket in his pocket than "Chairman of the Board of Directors, No. 25

of the Board of Directors, No. 28 Broadway."

My plan, concisely, as far as the giving of decisions is concerned, is first of all to have the commission appoint a committee of five reputable sporting writers. They select the referees and have absolute jurisdiction over the referees. Let said committee assign the referees to the various clubs, move them about at will and on the evening of a contest assign a certain referee to the club assign a certain referee to the club giving the contest, not notifying the club or the contestants as to the identity of the referee until he appeared in the ring with his authority from the committee. This plan is only an outline, of course, and, if the idea was satisfactory to our only an outline, of course, and, if the idea was satisfactory to our Governor and Major Dixon, could be worked out with more detail and along better lines with the help of

along better lines with the help of the sporting writers.

Of course you will say that cambling will result. Men gamble to-day and will to-morrow and all the king's horses and all the king's men can-not change human nature. You can-not legislate virtue in the "genus home." Bear in mind that many a wager is lost and won on the deci-sion given by the sporting editor, but the great trouble is, you gentlemen de not agree on a winner. The

I am unable to state at this time term of the legislature. I am cer-tain he will hear a defense of the sport before he condemns it. There is no question that the Governor re-ceives many letters condemning the sport and in no uncertain language. I receive letters every day from a certain class of people, denouncing me with a zeal that could be put to a more worthy cause, for remaining on the commission. One virtuous old gentleman wrote that I would old gentleman wrote that I would perish in a horrible catastrophe. Another gentlemen wrote the commission complaining of a certain club because the officials did not give him a programme of the contest. We can't please everybody. The persons who write Gov. Dix generally inclose a sweet little token clipped from some newspaper written by a long-haired reporter who, instead of being assigned to write up "Prof. Highforehead's Lecture at the Sunday Afternoon Club on the Sunday Afternoon Club on Ethical Culture," is instructed by the aporting editor to report a boxing contest. The Charge of the Light Brigade" fades into obscurity when said reporter finishes his report of the boxing contest.

We must concede that there are some persons in this State who r ver attended a boxing contest. Their in-

A LTHOUGH the Frawley Boxing
law is only in existence three
months, Secretary Charley Harvey of the State Boxing Commission
has already turned over to State Comptroller William Sohmer \$10,000, which represents 5 per cent of the gross re-celpts taken in at all the shows. As the game is getting better every day as a result of the cold weather and the new class of fighters who are arriving in town daily, it certainly looks as if the State will receive at least 200,000 from the sport by the end of the first year. The Boxing Commissioners have decided not to permit any fighter to take part in boxing exhibitions in theatres, declaring them illegal. This rul-ing will step One Round Hogan from appearing at a local theatre next week.

of the battle.

The other line positions will be filled by Hamilton, left end; Brown, left tackle; Howe, left guard; Weems, centre; with Glichrist playing right end on defense and holding down the pivotal job on offensive work.

McReavey, one of the other back field men, will go in at end when Glichrist drops back to quarter on offense. The other backfield men will be Dalton, at left half; Rodes, at fullback, and Nichols, at right halfback.

The Up-to-the-Minute man ong signal drill was all that was re- wants a suit that keeps up with quired of the Army yesterday. Several combinations of backs were used, but without doubt Brown is picked for left haif and in all probability Mac-
